** Prior to FY2011, a complaint could be opened on two entities (e.g., a pharmacist and a pharmacy) in the agency's computer system. However, beginning 9/1/10 (FY2011), because TSBP is migrating to a new data base system, a complaint may be opened on a single entity only (e.g., a pharmacist only or pharmacy only). Due to this change in procedure, TSBP will be reporting an increased number of complaints received, which will, in turn, result in a greater number of active/pending complaints being reported.

*** TSBP migrated to the new computer system on 5/27/11. All existing complaints having two entities were migrated as two complaints.
